

Your uptime is our priority.

PLEASE USE THIS QUESTIONNAIRE AS A GUIDE FOR YOUR LOAD BANK NEEDS

1. What are the technical requirements? (kW, voltage, phase, frequency, power factor, etc.)
2. What is the testing duration and testing sequence?
3. What type of equipment will be tested? (application)
4. Who will be performing the tests?
5. How will heat be dissipated? (vertical or horizontal)
6. What is the total distance between the equipment to be tested and the load banks?
7. Where will the units be delivered?
8. Do you need help with system design or operation?
9. What is the expected rental period? (daily, weekly, monthly)
10. What date will you require the load banks on site?
